POINTS ABOUT BUGGIES TO BE CONSIDERED!

**The Style!
The Quality!
The Price!**

The large assortment that we carry, together with the HIGH QUALITY of same and our VERY LOW PRICES, are responsible for our rapidly growing business. A large number of people are showing their appreciation of these points by trading with us, and are thereby increasing our business very materially, as well as.

Saving Themselves Money.

This last point is what touches a tender spot with most of us, but we want to say that IN NO INSTANCE DO WE SACRIFICE QUALITY FOR PRICE.

**We Sell the
Best Buggy Made,**

No exception, and while it may cost more than some others, it is not way up in price.

TWO NEW ROUTES.

Extension of the Rural Delivery Service in County.

The Gracey and Pon Deliveries Will be Inaugurated Monday.

Rural mail delivery routes Nos. 5 and 6 will be started from this city Sept. 1.

No. 5 will go out the Cadiz road to H. B. Clark's, thence across to the Princeton road and back to the city. J. T. Williamson will be the carrier for this route.

No. 6 will go out the Greenville road to near Pon post office, thence to Kelly on the Madisonville road and back to town. M. A. Littlefield will deliver the mail on this route.

The postoffice at Pon will be discontinued, but a petition is being circulated asking that it be continued. It is alleged that many patrons not on the new route would be left without a postoffice nearer than five miles.

CIRCUIT COURT BUSINESS.

Three More Divorce Suits Filed For Fall Term.

Chas Buckner has instituted divorce proceedings against Henrietta Buckner, and also prays the custody of their 8-year-old son. Abandonment is the allegation. The petition sets forth that they were married in 1890 and lived together about ten years.

Wiley Mallory also seeks a legal separation from Susan Mallory, alleging abandonment. They were married in Cheatham county, Tenn., in 1895 and only lived to only about two months, says plaintiff.

"Bettie Louise Webb vs. John T. Webb," the style of another suit for divorce, filed with the Circuit Clerk this week. They were married about eleven years ago. Cruel treatment and failure to provide is alleged.

POST OFFICE ROBBED.

And Two Other Stores Also Burglarized Last Tuesday Night.

Guthrie, Ky., August, 27.—Burglars broke into the post office at Ridge Top, Tenn., at an early hour this morning and blowing open the safe secured eight hundred dollars worth of stamps, a blank money order book and a small quantity of money.

Two stores at Greenbrier, a few miles distant, were also entered by burglars and robbed during the night, but only a small quantity of money was secured. It was thought the robberies were committed by convicts who recently escaped from the state prison in Nashville and bloodhounds from the prison were put on the trail, without success, however.

DEATH OF MRS. MCCARROLL.

Much Esteemed Woman of Macedonia, A Victim of Consumption.

Mrs. Lou McCarrroll died last Monday at her home near Macedonia. She had been ill for nearly a year. Death was caused by consumption. The interment took place Tuesday morning at Macedonia.

Overseer Named.

Lucian Burgess has been appointed overseer of the Gracey road from West Union church to the Cerulean Springs road.

Court Convenes Monday.

Trigg Circuit Court will convene in Cadiz next Monday. The docket is large.

WILL CLOSE TO-DAY.

The County Institute Has Had a Fine Week.

Prof. Cherry a Popular Conductor And Many Good Papers Read.

The County Teachers' Institute will conclude its meeting to-day. The sessions have been very interesting every day. Prof. Cherry has proven to be an excellent instructor.

On Tuesday the first subject discussed was "Reading." Prof. Cherry led the discussion, which was participated in by Mr. Pate, Miss Bush, Mr. Sollee and others. After recess Mrs. Keith opened the subject of arithmetic by giving her method of teaching the pupils in the first two years.

Mr. Gray followed in a talk on mental arithmetic.

Mr. Dudley said too much arithmetic was included in the first two years, interfering with thoroughness.

Mr. Sollee, Mr. Manier and others made talks and Prof. Cherry closed the discussion.

At the afternoon session Miss Willie Jackson read a most excellent paper on Grammar.

The subject was discussed by Mr. Burnett, Mr. Bogard, Mr. Alexander, Mrs. Jenkins, Miss Jenkins and Prof. Cherry.

After recess Prof. Cherry discussed "Nature Study."

Mr. Burnett next opened the discussion of Physiology and Hygiene, by saying we must know right, go right and do right. He dwelt upon the importance of talking to the pupils about physical conditions.

Mr. Alexander joined in this discussion, opposing the use of tobacco, which he declared was a conductor of many diseases.

Wednesday morning primary reading was discussed by Miss Hambaugh. Discussed by Prof. Cherry and others.

Prof. J. L. Manier discussed the successful teaching of arithmetic.

Prof. Keith discussed dry, measure and cubic measure.

Prof. Cherry closed with a general talk on the subject of child study.

At the afternoon session Miss Edwin Elliott discussed the use of pen and ink and the best paper for practice.

Miss Cornein Chambers treated of the relative merits of vertical and slant writing.

A general discussion of geography followed, led by Prof. Cherry.

At the afternoon recess the Institute repaired in a body to the Court Square, and a group picture of the Institute was made by a local artist.

On Thursday morning Prof. Cherry began with an interesting talk on geography and physical geography.

Mrs. W. T. Fowler read a well prepared paper on the development of the faculties by reading.

Miss Hambaugh and Miss Holman were heard on language lessons.

History was discussed in its different branches by Prof. Cherry, Prof. S. T. Fruit, Prof. Taylor and Miss Dove Anderson.

The afternoon session was devoted to school management, with Prof. Cherry leading the discussion, followed by Miss Mary Stoner and others.

Prof. Cherry's public lecture on Education last night at the court house was very interesting. There were several recitations and songs, and the program of the evening was quite enjoyable.

The Institute will finish its work today.

Reading, Grammar, Civil Government and School Management will all be further discussed.

VOTING CONTEST

**The Most Popular Lady In
Christian County to Be
Determined By Ballot.**

Beginning Friday, August 29th, a voting contest will be held to determine by popular vote the most popular lady in Christian County. To the lady receiving the highest number of votes, we will present a prize not yet determined upon finally, but which will be worth not less than \$100. The contest will close at 12 o'clock, noon, Monday, Dec. 29, 1902. The plan will be as follows:

Every subscriber to the Kentuckian who pays back dues or cash in advance will be entitled to cast one vote for each five cents paid. That is to say, a subscriber who pays \$2.00 will have 40 votes, one who pays \$1.00 will have 20 votes and so on for any amount large or small. In every paper published after August 29th there will be a coupon and these coupons when cut out and brought or sent to the office will represent each one vote.

A new subscriber who pays \$2.00 August 29th and saves his coupons from the 35 papers before December 29th will have in all 75 votes to cast for his choice. He will also have the privilege of gathering up coupons clipped by his friends from their papers and voting them one at a time, or by the hundred if he prefers. He will also have the privilege of buying papers at the office at five cents each and voting the coupons cut from them, as every paper after August 29th will contain a coupon.

Full details of the prize to be awarded will be given in an early issue. In the meantime the contest may begin with the guaranteed assurance from us that the prize will be worth \$100 or more.

The coupon ballots will be deposited in a ballot box with two keys. One of these keys will be held by County Judge W. T. Fowler and the other by Mayor Joubert Henry. The box will be opened not oftener than once a week, all ballots then in it taken out, counted and certified to, sealed up in an envelope and replaced in the ballot box. The envelope will contain a statement of the votes in it, so that its contents will not need to be counted again until the official count at the close of the contest.

The last week of the contest the ballots may be deposited without showing them, so that the close of the contest may be secret and exciting to the end.

Further explanations will be given from time to time. The voting will begin at 7 o'clock a. m. next Friday. Who will start the ball to rolling?

Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too.

If your druggist cannot supply you, send us one dollar and we will send you a bottle. He sure and give the name of your nearest express office. Address: J. C. AYER CO., Lowell, Mass.

NEW TOBACCO FACTORY.

Famous Greenville Plant Moved to This City.

J. H. Eggleton & Sons have bought out the R. T. Martin Tobacco Manufacturing Co., of Greenville, Ky., and are moving the plant to this city. New incorporation articles have been filed for the R. T. Martin Greenville Manufacturing Co., with a capital stock of \$25,000.

The incorporators are J. H. Eggleton, W. H. C. Hensley and George C. Long, of this city; A. Y. Allen, H. A. McNary and L. Z. Kirkpatrick, of Greenville.

The officers are: J. H. Eggleton, president and general manager; H. C. Hensley, vice president; W. H. Eggleton, secretary and treasurer.

The company will occupy the large new Eggleton building on the corner of Third and Liberty streets and will operate with 50 or 60 hands. All of the regular and special brands of the famous Greenville tobacco will be put up.

Mr. J. H. Eggleton was for sixteen years engaged in the manufacturing business before coming to Hopkinsville and is familiar with all details of the business. Mr. R. T. Martin, of Greenville, will retain a connection with the new company.

APPENDICITIS.

Some Facts Regarding Its Rapid Increase.

Appendicitis among Americans is certainly increasing and while this is probably due to the excitement and worry of American business life, it is more often directly traceable to constipation. Appendicitis is caused by extraneous matter entering the vermiform appendix and not by the swallowing of seeds. If the digestive organs are kept in perfect condition so the food is duly assimilated and the bowels move gently, at least once a day, appendicitis will never develop. Don't take chances. Regular doses of Dr. Caldwell's Syrup Pepsin before meals will strengthen the organs of digestion, your appetite will be good, constipation disappears and you feel better in every way. Dr. Caldwell's Syrup Pepsin does not relax the bowels by irritation, but by curing indigestion, the cause of constipation. All druggists sell it in 50c and \$1.00 bottles, under a positive guarantee. Write for book of testimonials to Pepsin Syrup Co., Dept. 5, Monticello, Ill.

CAME AS NURSE

And Contracted Disease That Caused Her Death.

Willie Sargent, col., of Pembroke, died Tuesday, at the home of her mother, on Crescent street, of typhoid fever, aged 24 years. The remains were sent to Pembroke Wednesday for interment.

She came here about a month ago to nurse her mother, who was ill of fever, and contracted the disease which caused her death. Her mother has recovered.

Only a Mask.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, unable to sleep, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by the great medicine which, as we know, builds up the whole system.

HERNDON HAPPENINGS.

A Worm Killer.

J. A. J. Montgomery, Puxio, Wayne county, Mo., writes: "We have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge: the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c at R. C. Hardwick's.

Representatives Elected.

At the regular meeting of Green River Lodge I. O. O. F. the following members were elected as representatives to the Grand Lodge: G. H. Champlin, G. E. Randle, W. H. Lee and G. M. Clark.

A YOUNG LADY'S LIFE SAVED

At Panama, Columbia, By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by C. K. Wyly.

COME TO BOOKS.

All Schools in the City Open Next Week.

Colleges Have Fine Prospects For Increased Attendance.

All of Hopkinsville's schools will begin their fall sessions next week, and every indication points to an increased attendance at all of them.

Bethel Female College.

This old and reliable institution, of which Prof. Edmund Harrison is President, has a boarding capacity of 60 young ladies, and room for as many more day pupils. The session is expected to open with the boarding department well filled and a larger outside attendance than ever before. One of the strong recommendations of this school is the fact that the same pupils return from year to year, until their educations are completed.

South Kentucky College.

The growth of this college during the last few years has been phenomenal.

year the total enrollment was 850, of whom 22 were boys and 477 girls. There will be a new room this year, making 22 teachers, including the Supt. attending.

The schools will open with a new Superintendent, Prof. J. B. Taylor, who comes from Middleboro, A.

PROF. J. B. TAYLOR, Superintendent of the City Schools.

male teacher has also been added in the High School department, in the person of Prof. W. M. Alexander, of Bowling Green, who succeeds Miss McDowell.

One other new teacher was elected.

WARM WEATHER

For First Few Days Of Next Month.

Frost In North About 4th to 8th And Again About the 18 to 20

Below we give a summary of the weather for September as figured out by Rev. Irl R. Hicks:

Warm weather generally will most likely prevail at the opening of the month, with falling barometer, growing humidity and other storm indications spreading eastward and southwest. On and touching the 2nd to 4th storms of rain, wind, and thunder. If a very low barometer and West India hurricanes reach our south coasts at this time they will either reach interior sections and travel thence to the Lakes causing high temperature and storms of rain, wind and thunder, or they will move up the Atlantic coasts causing danger in those regions and bringing high barometer, northerly winds and quite cool weather over all northern and central parts of the country.

The chances are that frosts will occur northward about the 4th to the 7th.

The regular storm period, central on the 13, will almost certainly bring on a state of stormy and unsettled weather that will continue in a general way into the reactionary storm days centering about the 17th and 18th. One of the danger periods for September will be about the 17, 18, and 19.

Expect very cool nights and frost to follow.

The last regular storm period for September is central on the 24 extending over the 22 to 27. This period is at the center of the earth's autumnal equinox, with moon at greatest declination north, perigee and last quarter. Another series of very decided equinoctial storms is both possible and probable at this time.

The month closes in a reactionary storm period incited by the passage of the Moon over the equator on the 30th. On that date and into October 1st, autumnal thunder storms will touch many localities.

Watch for a Chill.

However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herberich, by its prompt stimulating action on the liver drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50c at R. C. Hardwick's.

Death of Mrs. J. B. Nance.

Mrs. Mattie Hester, Nance died at her home in Frankfort, Ky., Aug. 7, 1902, leaving a devoted husband and sister to mourn her departure.

The subject of this notice was personally known to the writer, who looked upon her as one of God's jewels, awaiting the Divine setting. Hers was a gentle, winning, trustful spirit, enlisting at once the love and sympathy of all who knew her. Through years of suffering her faith in God never wavered, but grew brighter as she neared life's goal.

Bereaved ones, be not comfortless, "She is not dead but sleepeth." He who wept with the grief-stricken sisters of Bethany, is not unmindful of your sorrow. Hear his soothing words, "I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he live." And she lives forevermore. Tears and pain have been exchanged for the glad light of God's eternal presence. May this thought rest like a heavenly benediction upon your sorrowing hearts. Arise from your grief and prepare to meet the loved one awaiting you on the other shore.

No mortal more faithful and true. This care burdening earth ever trod.

No spirit more lovely than hers. Now dwells in the presence of God. EMMA GAINES.

Cured Paralysis.

W. S. Bailly, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." 22c, 50c and \$1 bottle at R. C. Hardwick's.

"PE-UR-NA NECESSARY TO THE HOME."

(Says Prof. Talfourd Smith, of Georgia.)

PROF. TALFOURD SMITH.

Professor Talfourd Smith, Principal Bloom High School, Bloom, Ga., writes: "With much pleasure I recommend Peruna to all who may be suffering with any trouble of the respiratory organs. I have been using it in my family for the past five or six years and find it to be almost a household necessity. Peruna is truly a grand catarrh remedy and general tonic and will do all that is claimed for it by the manufacturers."

PROF. TALFOURD SMITH.

Catarrh is inflammation of the mucous membrane. It may be in the mucous membrane lining the eyes or the pelvic organs, throat, stomach, liver, bowels or kidneys.

Catarrh is catarrh wherever located. Peruna cures it; Peruna is an internal remedy; not a local application.

Catarrh is a systemic disease, not a local disease. If Peruna will cure catarrh in one place it will cure it in any other place, because Peruna is a systemic remedy. It reaches the disease through the circulation in each organ. It eradicates the disease by eradicating it from the system.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Mrs. SAGAN J. SMITH, Admrx. of J. J. Smith, dec'd.

PLENTY OF QUAIL

And Fine Sport Promised During Open Season.

Farmers from various sections of Christian county report young quail plentiful. It was feared that the sleet and ice that prevailed last winter had destroyed so many of the old birds that there would be few hatched this season. Since the opening of spring, however, the season has been unusually favorable for hatching and rearing the young, and, in consequence, there will be an abundance of the game and fine sport is promised during the open season.

Summer Complaint.

If the stomach and bowels are free from gaseous and sour fluid accumulations with paralysis in regular, your children will go through the heated term without sickness. Dr. Caldwell's Syrup Pepsin corrects all such troubles by removing the obscure cause and keeps the system in perfect working order. All Druggists.

EVERY WOMAN!

Housekeepers, wives, mothers, every woman who has the care of a family or household, has at one time or another, spells of backache, nervous weakness, sick headache and disorders in the digestion, caused as a rule by domestic worry, overwork, irregular meals or habitual constipation. To all women who suffer in this way, we say:

TAKE ...

Prickly Ash Bitters

... IT CURES.

It performs a marvelous transformation. The tired, weak, despondent, pale and bloodless victim is soon a strong, bright, happy woman, with rosy cheeks and cheerful spirits.

Prickly Ash Bitters is not a disagreeable, bartering medicine as the name might indicate. It is pleasant to the taste, mild yet powerful in its cleansing and regulating influence in the vital organs.

Druggists sell it—Price, \$1.00

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE AMERICAN MONTHLY REVIEW OF REVIEWS is commended by Statesmen, Professional men and thousands of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting reports and the presentation of current events in their just proportion. They comment on its freedom from daily-paper sensationalism. All men and women who want to know what the world is doing find it an intellectual necessity to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely contributions on important topics are the best-written and best-written. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

These letters will enable all thoughtful men and women to judge of its value to them:

PRESIDENT
 "I know that through its columns I am a constant reader of the 'Review of Reviews,' and appreciate its very highly indeed. I think that it could not otherwise have a very important part of my bad access to because all earnest library, and practically a necessity and thoughtful men, no matter for one in public life."—*Forster, U. S. Senator, Ohio.*

EX-PRESIDENT
 "I consider it a very valuable addition to my library."—*Charles W. Fairbanks, U. S. Senator, Indiana.*

"It is one of the best and most satisfactory publications of the day."—*Charles W. Fairbanks, U. S. Senator, Indiana.*

"I do not have a great deal of time to read magazines, but I take pleasure in saying that the 'Review of Reviews' is among the number which finds a place on my table each month."—*Forster, U. S. Senator, Ohio.*

"It is a publication of very great value. I have sometimes found there very important matter indeed which I should not otherwise have discovered."—*George F. Hunt, U. S. Senator, Massachusetts.*

Victims to long hours in the Senate chamber, the floor engaged in a heated debate over the deliberation that characterizes the use of tobacco or gum, says the Washington Star. Up to the present time it has not been developed that any of the senators use gum, though a number of them habitually chew the weed. This habit has been made more general on the part of many senators who were inveterate smokers when they came here, and who found so many rules against the smoking of tobacco at the capital. Of course, the cloak rooms and committee rooms are at all times available for smoking, but it frequently happens that certain senators, wishing to follow the debate in the senate chamber and missing their cigars, get in the habit of stowing away a small piece of the weed for chewing purposes where they can use it as a substitute for the cigar. The rules against smoking at the senate in their application to senators are peculiar. They are enforced by common consent. If a senator is seen violating an established rule made by the committee on rules he may be reminded of that fact as if he had unconsciously violated it, which is generally the case. But the gentlemanly reminder is the only method for enforcing the rules that is ever used. The senate proceeds on the principle that gentlemen will obey such rules of its own body without further effort than to suggest that they exist. The thorough way in which the rules are respected shows that their confidence is not violated.

HYGIENE FOR PLANTS.

Vegetable Life, According to a Botanist, Requires Rest and Sleep.

"Trees and plants," said a botanist, "require sleep as well as food. 'No matter how hearty they may be, want of rest will cause them to grow old and withered before their time.' This is especially shown in the case of trees and flowers in towns. The main reason that they do not flourish as they do in the country is that they are kept awake too much at night. The smoke and dust of the city, have done to do with it, but one of the principal causes of their unhealthiness is want of proper sleep."

"Of the causes which keep such trees and flowers constantly wakeful there is the matter of noise in all its forms and the vibration which results from the incessant activity of city life. Plants and flowers all kind sleep best away from the glare. So the lights of a city, which shine all through the night, must contribute to this interference with vegetable sleep."

"You may wonder why plants should need sleep since they do not move about like animals or perform any work in the ordinary sense, but alternate periods of activity and rest are required by all forms of life, and where this natural law is interfered with bad results follow."—Washington Star.

HOW HE PROPOSED.

The Actual Performance Was Quite Unlike the Previous Rehearsal.

He wished to propose to the girl of his choice, but he was nervous. First he thought of the old romantic style: "By my halidom, fair one, I would fain take thee for my bride. Say thou wilt be mine, and ere the sun glides the turrets of yonder castle the four shall unite us in holy bonds."

But that face the prevalent rage for dramas of the olden style, this form seemed satisfactory. Being an eminently modern young man, however, he thought again and determined to test the theatrical mode.

But just at that moment the fair Mary tripped into the room, and he blurted out:—"Mary—er—will you—er—"

But Mary was far from being contrary. "O, that's all right, George," said she, "I know what you mean. Why, of course, I will. Papa will be delighted."—Stray Stories.

Value of a Virtuous Woman.

In the churchyard of Leigh, near Bolton, will be found a tombstone bearing the following amazing sentence: "A virtuous woman is as a crown to her husband." The explanation seems to be that space prevented "a crown" being cut in full, and the stonemason argued that a crown equals five shillings.

In the Antarctic Region.

Within the antarctic circle there has never been found a flowering plant. In the arctic regions there are 762 different species of flowers.

It shows the importance of a woman to be healthy that he chief complaint against working is often that she cannot work. What must such a woman mean to the world, who must work if she would live? There is no woman so independent of spirit as a working woman. And yet there are many self-dependent women struggling on day by day, knowing that they must soon break down and become dependent on others.

For weak, run-down, over-worked women there is new life and new strength in Dr. Pierce's Favorite Prescription. It cures backache, headache, nervousness, sleeplessness and other consequences of womanly diseases, by curing the diseases which cause these ills. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I suffered from female weakness for three years so that I could not work," writes Miss Clara Peterson, of Manhattan, Ill. (Box 253). "Was all run-down, only weighing ninety pounds (used to weigh one hundred and thirty pounds). I used your 'Favorite Prescription' and one box of your 'Lotion Tablets,' and can now do all kinds of work, thanks to Dr. Pierce's medicines."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Misses Marian Cayce and Lula Stegar are visiting friends in Clarksville this week.

Mrs. Ed. Schmidt is quite sick with fever at the home of her mother, Mrs. L. V. Adams.

Miss Joe Stacy and sister returned to their home in Clarksville Sunday.

One day last week Mrs. I. H. Cayce went to Hopkinsville and put her horse in aivery stable, and when she started home they hitched up a horse belonging to some one else to her buggy. She drove it home and didn't know the difference until the iveryman sent after the animal the next day.

There will be a party at the home of Mrs. John Eads, of Near Howell, next Wednesday night.

The farmers are all blue now about their tobacco crop.

Mr. Harry Killebrew says that it has not rained any since he broke up a hen's nest last fall with thirteen eggs in it. He declares that he will never do it again.

GRASSHOPPERS USEFUL.

Western Farmers Are Now Feeding Them to Their Turkeys.

Farmers in Western Kansas, Eastern Colorado and Southwestern Nebraska no longer look upon the grasshopper as a pest and a menace to crops. Instead, the insect is regarded as a valuable asset and the arrival of aswarm of insects is hailed with much delight as a good harvest from some minor crop. The reason of the change in the attitude of the farmers toward the grasshopper is the result of the discovery that they are excellent food for turkeys.

More than a quarter of a century ago grasshoppers raided and destroyed thousands of dollars worth of crops in Kansas and gave this state the first reputation for suffering. The farmers in those days raised no turkeys, and the insects had full sway.

Today thousands of turkeys are owned in the western part Kansas. The fowls live almost exclusively on grasshoppers and consume between a pint and a quart of the insects every day.

AT BAPTIST CHURCH.

Y. M. C. A.'s Interesting Meeting For Next Sunday Night.

The Executive Committee of the Y. M. C. A. met last night at the Christian church. The public will doubtless recall that the last of the union services were to be held in the interest of the Y. M. C. A. Hence Sunday night next, 8 o'clock, at the Baptist church, this meeting will be held, the Rev. H. D. Smith, of the Christian church, being in charge. No set address will be delivered, but a number of brief, breezy talks will be made. The choirs of the city will probably unite in an interesting song service. All the young men of the city interested in this movement, which, among other good things, assures them a capital gymnasium, will be especially welcomed. No subscription will be asked for. By order of the committee.

Farewell Party to "Cadet" Riley.

A most enjoyable event and one which will be memorable to all who were present, was the farewell party given Friday, August 22, to Napoleon W. Riley, son of Mr. and Mrs. J. W. Riley.

After spending his vacation at home with relatives and friends, Mr. Riley was about to leave for West Point.

The guests were most charmingly received by the host and hostess, and were delightfully entertained the entire evening. Refreshments were served in the dining room, which was beautifully decorated in red, white and blue and an original floral design. The favors were small American flags.

Music and dancing were the principal features of the evening.

Wishing the honored gentleman many happy returns and unbounded success, the guests departed at a late hour.

A Cure for Cholera Infantum.
"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good it used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this remedy frequently and have never known it to fail in any single instance." For sale by C. K. Wylie.
